Core Strengths

At Galaxy, we believe our strength lies in remaining anchored to our values as we navigate an evolving business landscape. Staying rooted to our philosophy of "Chemistry Creates Care", we integrate responsibility and innovation to create a meaningful impact on the value chain and all our stakeholders.

Driven by the four pillars of Character, Competence, Competitiveness and Comfort, we are delivering long-term, sustainable value. It enables us to grow responsibly while adapting to change.

Growth Drivers

Sustainability and Safety

We integrate sustainable practices across operations, ensuring safety and environmental responsibility at every stage.

Regulations

Adapting to regulations and compliance standards ensures we stay ahead of industry trends and meet the expectations of our stakeholders.

Innovation

Innovation is at the heart of our strategy, enabling us to develop cutting-edge solutions that meet evolving market needs.

Character

Our character is reflected in the way we work

- Respecting and valuing people
- Conducting business with integrity
- Imagining and Envisioning
- Staying close to our customers and caring for their needs
- Driving efficiency and continuous improvement

Comfort

Comfort is about trust

- "Fill it and forget it" – the confidence we instil in our customers
- Assurance that we deliver on promises without follow-ups
- Consistent performance that reassures and builds lasting relationship

Competitiveness

For us, competitiveness means

- Offering the best quality at the right price
- Enabling customers to deliver superior, faster solutions to their consumers
- Creating solutions that redefine possibilities

Competence

Our competence lies in

- Scaling up with confidence
- Innovating to meet evolving needs
- Delivering solutions that spark paradigm shifts

At Galaxy, our growth is anchored in sustainable actions. We focus on immediate priorities as well as on future opportunities to adapt and innovate in a changing world. Our conscious actions create meaningful impact. By aligning our efforts with the following growth drivers, we ensure responsible, resilient and balanced progress.

Responsible Consumption

We are responsive to the growing demand for tailored, resource-efficient solutions contributing to a circular economy.

Technological Advancements

We leverage the latest technologies to drive efficiency, improve product performance and deliver an enhanced customer experience.

Emerging Opportunities

We continuously explore new markets and opportunities that align with our sustainability goals and enhance long-term business growth.
